DETAILED ACTION

Election/Restrictions

1. Based on applicant's election of claim 2, claims 1 and 3-71 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in Paper No. 7.

It is noted that (1) the species of claim 2 is not covered by the genus recited in claim 1 in that the elected species does not contain a charged moiety as required by claim 1 and (2) the elected invention is a composition and, thus, method of use comprising the elected composition is also withdrawn from further consideration.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claim 2 is rejected under 35 U.S.C. 102(b) as being anticipated by Ito et al. ('151).

Ito et al. teach a genus of amino derivatives such as 1-ethyl-3-(3-dimethylaminopropyl)urea and their use in suppressing non-specific reactions in

immunoassays (see col. 3, lines 7-50; figure 5, compound #1; col. 6, example 1; col. 10, claim 6). The composition taught by the reference is encompassed by the instant claim.
